PROFESSIONAL SUMMARY

UI/UX Designer and AI Engineer with an academic background in Science (B.Sc. & M.Sc. in Biology) that proves to be a strategic advantage in developing AI solutions — particularly for domains requiring understanding of complex systems, data analysis, and analytical thinking patterns. Holds M.Sc. from Universitas Sumatera Utara (2024) & B.Sc. from Universitas Syiah Kuala (2018) with hands-on experience building 10+ end-to-end digital products spanning user research, UI/UX design, and production-grade AI model integration. Semifinalist at the PIDI Digdaya Bank Indonesia Hackathon 2026. Committed to delivering intuitive user experiences backed by reliable, scalable AI systems.

WORK EXPERIENCE

Laboratory Technician & UI/UX Web Designer + AI Stack Web Engineer

Integrated Laboratory, Universitas Sumatera Utara (USU) | 2020 - Present | Medan, North Sumatra, Indonesia

- Manage daily laboratory operations: sample testing, instrument calibration, and test result documentation according to SOP & ISO standards.
- Design and develop a web-based Laboratory Information Management System (LIMS) to digitize testing workflows, reporting, and sample management.
- Design LIMS dashboard UI/UX with Figma, then implement using Next.js, React, TypeScript, and Tailwind CSS for the frontend.
- Integrate AI stack for test result prediction and automated sample classification using Google Gemini API & TensorFlow.
- Build REST API with Node.js, Express, and Prisma ORM to handle communication between frontend, PostgreSQL database, and AI modules.
- Implement authentication system (JWT + bcrypt) and role-based access control for admin, laboratory technicians, and researchers.
- Deploy applications to Vercel & Cloudflare Pages with CI/CD pipeline via GitHub Actions.
- Train 5+ new laboratory staff on the information system and digital procedures.

School Website Administrator (Internship)

SMPN 3 Langsa (Junior High School) | 2019 - 2020 | Langsa, Aceh, Indonesia

- Manage and develop the official school website using WordPress CMS & HTML/CSS/JavaScript.
- Update website content on a regular basis: school announcements, event schedules, teacher profiles, and event documentation.
- Redesign website layout to improve user experience & mobile responsiveness (mobile-first design).
- Create and manage school social media accounts (Instagram, YouTube) integrated with the website.
- Perform routine maintenance: database backups, plugin updates, and website security monitoring.
- Train 2 senior teachers to independently manage website content through documentation & training sessions.

EDUCATION

Master of Science (M.Si.) - Biology

Universitas Sumatera Utara (USU), Medan | 2022 - 2024

Academic background in biology provides strategic advantage for AI Engineering: deep understanding of complex systems, scientific data analysis, and analytical thinking patterns directly relevant for computational biology, bioinformatics, and AI model development in life sciences & healthcare domains.

Bachelor of Science (S.Si.) - Biology

Universitas Syiah Kuala (Unsyiah), Banda Aceh | 2014 - 2018

Strong foundation in scientific method, statistics, and data processing that underpins the career transition to data science and AI engineering.

PROJECT PORTFOLIO

Featured projects with public repository links for verification:

- **Job4You - AI-Powered Remote Job Search Platform + ATS Resume Checker**

SKILLS

UI/UX Designer Tech Stack: Figma, Adobe XD, Sketch, Adobe Photoshop, Adobe Illustrator, Design System & Tokens, Wireframing, Prototyping, Usability Testing, User Research, Journey Mapping, Persona Development, Information Architecture, A/B Testing, Neumorphic Design, Material Design, Mobile-First & Responsive Design, Accessibility (WCAG 2.1), Figma Auto Layout, Figma Variants, Micro-interactions

AI Engineer Tech Stack: Google Gemini API (gemini-2.0-flash), OpenAI API, Prompt Engineering, RAG (Retrieval-Augmented Generation), LangChain, TensorFlow, TensorFlow Lite, PyTorch, scikit-learn, MLflow, Model Deployment & Retraining, MLOps, Pandas, NumPy, Matplotlib, EDA, Feature Engineering, Computer Vision, Image Classification, Isolate Inference, Hugging Face

Frontend Development: React, Next.js 16, React Native (Expo), TypeScript, Tailwind CSS 4, shadcn/ui, Radix UI, Framer Motion, Zustand, Three.js, GSAP, MDX Editor

Backend & Database: Prisma ORM, PostgreSQL, Neon, Convex, Supabase, Node.js, REST API, Bcrypt Authentication, SQLite, Caddy Server

Cloud & DevOps: Vercel, Cloudflare Pages, GitHub Actions, Docker, CI/CD Pipeline, OpenNext, Wrangler, EAS Build, Vercel Postgres

Programming Languages: TypeScript, JavaScript, Python, Dart, PHP, SQL

CERTIFICATIONS

Dicoding Academy (18 course certificates)

- **Machine Learning & AI** — 4 certificates (ML for Beginners, Applied ML, ML Development, AI Integration)
- **Frontend & UI/UX** — 5 certificates (JS Programming Basics, Frontend Web Fundamentals, React, React Expert, etc.)
- **Backend & Cloud** — 5 certificates (Backend Fundamentals, AWS Cloud Practitioner, GCP Basics, Azure Fundamentals, Docker)
- **Mobile Development** — 4 certificates (Android Beginners, Android Fundamentals, Flutter, Multi-platform)

Big Data & Data Analytics Training (BDT) — 1 professional certificate

Certificate verification link (Google Drive): <https://drive.google.com/drive/folders/1dFr8J11MOiOYUozlHDO4PvPmmeavzlfX>

AWARDS

Semifinalist — PIDI Digdaya Bank Indonesia Hackathon 2026

Bank Indonesia | 2026 | National

Collaborated with a team to develop an innovative data- and AI-driven digital solution supporting Bank Indonesia's digital transformation agenda. Passed the preliminary selection round and ranked among the top 20 teams nationally out of thousands of participating teams.

LANGUAGES

Indonesian — Native
